New Orleans, Nov. 24.—The True Delta's Brazos correspondence, dated Nov. 15, has the following:

A ludicrous mistake was made to-day by the Imperialists. Some barges of wood, for Gen. Clark, commander at Brazos, broke loose above Matamoras and floated past that place. Two gunboats, assisted by land batteries, opened fire on the barges and continued it until the barges were past the batteries and out of range. One of the barges lost her rudder. It appears the Imperialists thought the barges were Liberal rans going down to destroy the fleet at the mouth of the Rio Grande which blockade the river. 1865. New York Market. 1865. Amusements. Reports from nearly all the States where the Freedmen's Bureau has been established, state that there is considerable suffering among the negroes. Gen. Howard is strongly opposed to abolishing the bureau at present. The reports of schools in the bureau in Kentucky and Tennessee, show 100 schools in active operation for colored children and destitute refugees. These schools are supported by different benevolent associations throughout the North, but they are placed under the auspices of Gen. Fisk, Assistant Commissioner. The total number of scholars in attendance in the month of September was 12,480, and the total number of teachers employed in active service, 180. CASHMERE VESTINGS By a responsible Company, brought to the There is an improved demand for domestic goods. Prices have declined so as to induce larger purchases. Still prices are very high, and circumstances are conspiring to lead to yet a lower range. Prints show more firmness, and large sales have been effected during the week, without a decline. Bleached shirtings and sheetings have declined, and brownlight goods are lower, though the heavy goods are steady. Ginghams command a botter sale, Fancy cassimeres of approved styles keep moving; such as dark cords and stripes. Some spring styles are selling by sample. Miltons are scarce and in demand. Delaines are much lower in price, which has induced jobbers to buy freely. Stripes and checks are very attractive. Tweeds are active. There is a fair demand for imported goods of desirable styles. A concession has been made in prices. Italian cloths are very quick of sale, as well as fine black broadcloths, and heavy doeskins and beavers; the latter for cloakings and overcoats. Silks are quiet, and are in better supply from recent importations. In ribbons there is great vitality of demand. Plain styles especially are wanted. Colored velvets have advanced in price. The sales at auction have been large, and realized good prices.

The feature of the trade now most noticeable is the great increase of sales on credit. The currency is not yet on such a stable basis as to justify credits; as, before the notes given full due, it is very likely a change in the state of the noney market may take place to render payment of notes very uncertain. A change in the currency will be made sooner or later, and when it does come the shock will be great. The only safe plan is to sell and buy for cash, until we get to syecie payments again. A contract was concluded yesterday by Gen. Labajar, Minister of the Colombian Government, by which Col. S. A. Gilbert and Preston F. West, two officers of the U.S. coast survey, enter the service of the Colombian Government for the purpose of making a survey of the Magdelina river, a stream emptying into the Colombian sea, four hundred miles east of Aspinwall. The object of the Colombian Government is to deepen the cannel at the mouth of the river, or to overcome two falls some distance up, by which \$40 miles of navigation will be saved.
